DISTRICT CAR

Legal Partner Pitch Deck

From “Not Yet Registered” to “Fully Compliant Aggregator” — With You

■■ FOR LAW FIRMS & LEGAL PARTNERS
Khunti • Ranchi • Jamshedpur — Empanelment Opportunity

CONFIDENTIAL — PRE-INCORPORATION PARTNER DOCUMENT

District Car is currently **not registered** and **does not collect fares** from customers or drivers. All payments are **peer-to-peer (cash/UPI)**. We seek **1–3 law-firm partners** to guide us from **intermediary (today) to licensed aggregator (Month 9)** — and to grow with us across **24 districts**. This deck explains the model, the roadmap, the risk, and the reward.

Nichey Chowk, Khunti — 835210 | +91 87896 01387 | support@districtcar.in | districtcar.in | October 2026

WHY THIS MATTERS — THE RURAL VACUUM IS REAL

3.89 Cr	76%	32,620	■0
Jharkhand Pop. (2025 est.)	Rural (2.96 Cr)	Villages (24 Districts)	Platform Commission (Today)

Jharkhand is **India's most rural large state (76% rural vs 65% national)** and among the poorest (per-capita ■91k vs ■1.72L national). **2.96 crore villagers** depend on fragmented autos and private Boleros for every essential trip — Sadar Hospital, railway station, haat, college. **Ola/Uber serve 3 cities**; the other **21 districts have zero app-based options**. The state Economic Survey 2023-24 flags **transport as the #1 barrier** to health and education access. This is not a 'niche' — it's a **■5–7 Cr/month fare-flow market** that is completely unorganized — and therefore, a **first-mover legal + business opportunity**.

Fact	Number	Source
Rural population	2.96 Cr (76%)	Census 2011 + SRS projection 2025
Villages → GPs → Blocks	32,620 → 4,402 → 260	LGD + Panchayati Raj Dept, JH (2023)
Rural smartphone base	~1.2 Cr (31% of rural)	TRAI 2024 + extrapolation
Avg. rural trip distance	<25 km (92% of trips)	NSS + our Khunti ground survey
Fare we organize	■10–18/km, no surge	Server-computed (Haversine), fixed slab
Fare flow at scale (8 dist.)	■5–7 Cr/month (peer-to-peer)	1L riders × 3 trips/mo × ■150 avg

Why a law firm should care: This is a **greenfield aggregator** in a state with **no entrenched competitor**. The firm that guides incorporation + aggregator licence + DPDP + labour compliance **owns the legal relationship** for 24 districts, 5,000 drivers, and a future fundraising pipeline. Advisory today = retainer + success + equity + deal flow for 5 years.

WHAT DISTRICT CAR IS — AND WHAT IT IS NOT (TODAY)

Three apps, one trust layer — intermediary today, aggregator tomorrow

■ WHAT WE ARE (TODAY)

- ■ **IT Act s.79 Intermediary** — discovery + booking + trust layer
- ■ **Peer-to-peer payments only** — cash/UPI rider→driver, platform does not touch fare
- ■ **Monetization via ads (Monetag)** — not commission
- ■ **Flutter + Firebase** — Customer App + Sarathi App + Admin Web Panel
- ■ **Live photo + OTP + rating** — trust without holding money
- ■ **districtcar.in** — 24-district SEO, already indexed

■ WHAT WE ARE NOT (TODAY)

- ■ **Not a transport operator** — we don't own vehicles, don't employ drivers
- ■ **Not a common carrier** — no fare collection, no carrier liability
- ■ **Not collecting commission** — so no GST on fares today
- ■ **Not registered yet** — pre-incorporation, hence this partnership
- ■ **Not holding rider/driver money** — no wallet, no escrow
- ■ **Not soliciting public funds** — this deck is for legal empanelment, not investment

Platform architecture (for your diligence):

Component	Stack	What It Does	Data Handled
Customer App	Flutter (Android)	Phone OTP, fare estimate, driver search (25s), live map, OTP, rating	Phone, location (trip only), rating
Sarathi Driver App	Flutter (Android)	Camera-only vehicle photo, Online/Offline + geohash, request overlay, OTP, cash confirm	Aadhaar last-4, DL, RC, live photo, geohash
Admin Panel	Flutter Web	KPIs, trip monitor, driver verify/approve, rate cards, support	Aggregated; no PII export without consent
Backend	Firebase Cloud Functions (TS) + Firestore + FCM	Txn-locked assignment, Haversine + geohash (5→10→15 km), server fare, push	Txn logs, fare logs (no payment instrument)
Web / SEO	districtcar.in (static + JSON-LD for 24 districts)	Landing + blogs + app links + Monetag push tag	No PII; anonymized analytics

*All PII is **consent-based, purpose-limited, and stored in Firebase (Mumbai region)**. No payment instrument is stored. DPDP Act 2023 compliance is part of your mandate (see roadmap).*

BUSINESS MODEL — WHERE MONEY FLOWS (AND DOESN'T)

Peer-to-peer today → Subscription/commission after registration. Clean, auditable, GST-efficient.

Phase	When	Money Flow	Platform Revenue	GST Trigger	Your Role
Phase 0–1 (Pilot)	Day 1 → M8	Rider → Driver (cash/UPI, direct)	Ads (Monetag CPM) + partner leads ₹8k→₹85k/mo	GST on ad invoices only	ToS/Privacy (peer-to-peer disclosure) + intermediary memo
Phase 2 (Registered)	M9 → M12	Rider → Driver (platform records fare, still peer-to-peer OR optional gateway)	Subscription ₹299/mo OR 10% commission (driver choice) + ads ₹1.6L→₹5.8L/mo	GST on platform fees (18% on commission/sub)	Pvt Ltd + DPIIT + GST + aggregator filing; gateway & GST advisory
Phase 3 (Scale)	Year 2+	Platform as aggregator (fare via gateway → split)	Commission/sub + intercity + parcel (logistics) ₹57L/yr+	GST on full platform fee; TDS on driver payout	Aggregator licence + DPDP + labour + insurance + fundraise

Why peer-to-peer now is legally prudent:

- **Minimizes liability pre-registration:** No fare handling = no carrier/common-carrier exposure, no payment-aggregator obligations, no escrow.
- **Preserves intermediary safe harbour (s.79 IT Act):** Platform is a neutral facilitator with grievance redressal (+91 87896 01387) and takedown SOP — to be formalized by you.
- **Defers GST on fares:** GST applies to **platform fees**, not to peer-to-peer fares we don't collect. Ad revenue GST is straightforward (B2B invoices).
- **Builds PMF before regulatory cost:** Proves 15k rides/mo and 5k drivers before spending ₹1–1.5L on aggregator licence and compliance.
- **Disclosure is explicit:** Every booking screen + pamphlet + wall says: *'District Car is a discovery platform. Fares are agreed and settled directly between rider and driver.'* — Hindi/Nagpuri copy to be vetted by you.

Auditor's view (for your file): Phase 1 revenue = **advertising services** (SAC 99836) + **lead referral** (SAC 99859) — both B2B, invoiced, GST 18%. No unaccounted cash touches the company. Driver earnings are **their business income** (we don't TDS till we are the payor). Clean books from Day 1 — exactly what DPIIT/Investor diligence will want.

LEGAL & COMPLIANCE ROADMAP — YOUR MANDATE

When	Workstream	Deliverables	Fee (est.)
Day 0–30	Empanelment + Intermediary Pack	MOU (retainer + success + 0.5% pool) • ToS + Privacy (EN/HI) + Driver Agreement (peer-to-peer) • Intermediary memo (s.79) + Grievance Officer nomination	₹25–40k
Day 30–90	Incorporation (MCA)	Pvt Ltd: 'District Car Mobility Pvt Ltd' • DSC/DIN, MoA/AoA (IT + logistics objects) • PAN/TAN, Udyam (MSME), Profession Tax (JH)	₹35–50k
Day 60–120	DPIIT (Startup India) + GST + Trade Licence	DPIIT recognition (tax holiday, IPR, tenders) • GST registration (threshold watch) • Khunti Nagar Panchayat trade licence	₹15–25k
Day 90–150	Transport Aggregator Licence (JH)	Jharkhand Motor Vehicles (Aggregators) Rules — filing: entity + driver verification SOP + fare display + grievance + insurance	₹50k–1L*
Day 120–180	DPDP 2023 + POSH + Insurance	Consent manager + privacy-by-design audit (app + Firestore) • POSH committee • PA cover for Sarathis (₹10/ride bundled)	₹30–50k + ₹10/ride
Day 90+	MoUs + Contracts	Sadar hospitals, railway stations, colleges, fuel/tyre partners — revenue-share / barter templates	Included
Ongoing	Litigation + Labour + Fundraise	Driver disputes, accident claims, labour (if applicable), pre-seed/seed docs (SHA, term sheet, ESOP)	Retainer + success

**State fee varies; legal fee is over and above. We budget ₹1.2–1.8L for the full Day 0→180 compliance stack (excl. insurance per-ride).*

What 'done' looks like by Month 6:

- **Incorporated Pvt Ltd + DPIIT + GST + Trade Licence** — certificate folder ready for investor data room.
- **Aggregator licence filed (or granted)** — we can legally collect platform fees and offer gateway payments.
- **DPDP-compliant app** — consent, retention, and deletion flows audited; Firestore Mumbai region; DPO nominated.
- **Driver verification SOP + insurance** — every Sarathi has live photo + docs + PA cover; deactivation policy documented.
- **Standard contracts library** — ToS, Privacy, Driver Agreement, Hospital/Station MoU, Referral T&Cs; — all bilingual.

RISK REGISTER — WHAT KEEPS US (AND YOU) UP AT NIGHT

Risk	Level	Mitigation (Your Drafting)
Pre-registration liability (accident, assault, fare dispute)	HIGH	Peer-to-peer disclosure on every surface; no fare handling; PI insurance (₹10L) from Day 30; grievance SLA 24h; incident SOP + deactivation
Driver as 'employee' (labour law)	MED	Driver Agreement: principal-to-principal, no control on hours/area, no minimum guarantee; driver chooses commission vs subscription

Risk	Level	Mitigation (Your Drafting)
Data (DPDP 2023) — location + Aadhaar last-4 + photo	MED-HIGH	Consent at onboarding; purpose limitation; retention 90 days post-trip; Mumbai region; DPO; audit by you before M6
Payment (if we touch fares post-licence)	MED	Licensed PA/PG only (Razorpay/Cashfree); no wallet; split settlement; GST on platform fee only
IP — app + brand 'District Car'	MED	Copyright (code) + Trademark Class 39 (transport) + 35 (advertising) filing by M3; domain + Play Store secured
Copycat + wall defacement	LOW→MED	Wall contracts (6-mo) + hospital MoUs + driver referral lock (40% users via referral = moat)

Non-negotiables we will not compromise (even for growth):

- **No ride without OTP. No district without 50 verified Sarathis. No surge — ever.**
- **No fare handling till aggregator licence.** If a Sarathi asks us to collect, we say no.
- **No data without consent.** If consent is withdrawn, data is deleted — not 'anonymized'.
- **No deactivation without due process.** Warning → training → suspension → deactivation, with appeal to Grievance Officer.

Your impact as legal partner: You don't just "file forms". You **write the trust architecture** that lets a Torpa mother put her daughter in a District Car at 8 PM. That's the CSR + PR + legacy story your firm will tell for years.

ENGAGEMENT MODEL — WHAT WE OFFER & WHAT WE ASK

Three firms, three geographies — one network. Pick your district cluster.

Firm Slot	Geography	Why You	Mandate Focus
Firm A — HQ	Khunti + Ranchi (pilot belt)	Home base; closest to ops + Sadar + admin	Intermediary memo, incorporation, DPIIT/GST, daily advisory
Firm B — Steel Belt	Jamshedpur + Bokaro + Dhanbad	Industrial + tourist + intercity (high ticket)	Aggregator licence (JH), MoUs (station/hospital), labour
Firm C — Tribunal / Policy	Ranchi (High Court) + Delhi (if needed)	Writ + policy + DPIIT liaison + future fundraise	DPDP audit, IP (TM/Copyright), SHA/term sheet, POSH

Commercials (per firm — negotiable, transparent):

Component	Amount	When	Note
Retainer	■15–25k / month	Monthly (from MOU)	Covers advisory + calls + document review; 20h cap, then hourly
Success — Incorporation	■25–35k	On certificate	Pvt Ltd + PAN/TAN + Udyam done
Success — DPIIT + GST	■15–20k	On recognition	Startup India certificate + GSTIN
Success — Aggregator filing	■40–60k	On filing (licence fee extra)	Complete application as per JH Rules
Success — DPDP audit	■25–30k	On audit sign-off	App + Firestore + consent flows
Advisory equity pool	0.5% total (for all firms)	Vested 12 mo, 3-mo cliff	Optional; aligns long-term — your call

*Total Day 0→180 per firm: **retainer ~■90–150k + success ~■1–1.4L = ■1.9–2.9L** (excl. govt fees & equity). For 3 firms, the full legal stack is **■5.5–8.5L** — less than one city lawyer's annual fee, for a 24-district network.*

What you get beyond fees:

- **Brand association:** 'Legal Partner — District Car, Jharkhand's Rural Mobility' on **districtcar.in + 5,000 pamphlets + 50 wall paintings + 50 jackets + Admin Panel footer** — seen in 24 districts.
- **Deal flow:** First right to handle **driver disputes, accident claims, labour, and pre-seed/seed fundraising** (SHA, ESOP, term sheets) — estimated ■8–12L in Year 1–2 fees.
- **Impact + PR:** Co-author **'Jharkhand Rural Mobility — Legal Blueprint'** (whitepaper) + joint press note on incorporation + DPIIT — CSR and thought-leadership win.
- **Network:** Introduction to **DPIIT, Jharkhand Startup Cell, Sadar hospitals, and railway station masters** — relationships that outlast District Car.
- **Low risk, high learning:** Phase 1 has **no fare handling = minimal liability**; you build the aggregator playbook in India's most underserved market — a case study for other states.

TIMELINE & THE ASK — NEXT 15 DAYS

What Happens	
MOU (Firm A, Khunti) + kickoff: intermediary memo + ToS/Privacy (EN/HI) draft	You: depute 1 associate + 1 partner r
ToS/Privacy + Driver Agreement (peer-to-peer) + Grievance Officer nomination	We: publish on districtcar.in + app; print on p
poration kickoff: name approval (MCA) + DSC/DIN + MoA/AoA (IT + logistics)	You: file; We: provide KYC + capital +
t 50 rides + grievance drill + weekly review #1 (you invited) + Firm B/C intro	GO/NO-GO for Torpa expansion — needs 20 ric
ncorporation done + DPIIT filing + wall #50 painted + 100 Sarathis verified	Joint press note: 'Khunti's District Car — legal

THE ASK — TODAY

1. **30-minute call this week** — founder + marketing head + your partner (we come to your office in Khunti/Ranchi/Jamshedpur)
2. **Sign 2-page MOU** — retainer + success + 0.5% pool (optional) + brand association
3. **Nominate 1 associate** as District Car SPOC — we add to WhatsApp ops group (daily 9 AM standup)
4. **Deliver ToS/Privacy + Driver Agreement (peer-to-peer) in 7 days** — we publish and print

Why now, why us, why you:
"We could have incorporated on Day 1 and figured out law later — like most startups. We chose the opposite: **law first, scale second**. Because in rural Jharkhand, **one incident without a legal backbone can kill trust forever**. We'd rather go slow and right than fast and sorry. If you believe, as we do, that **3 crore villagers deserve the same legal protection as a city rider** — let's build it together, wall by wall, clause by clause."

— Founder & Marketing Head, District Car | Nichey Chowk, Khunti | +91 87896 01387

LET'S TALK — THIS WEEK | +91 87896 01387 | support@districtcar.in | districtcar.in | Nichey Chowk, Khunti — 835210
Available for in-person meeting in Khunti / Ranchi / Jamshedpur — we come to you. MOU draft ready to share on WhatsApp.

District Car Mobility (Pre-Incorporation) • This document is for legal empanelment discussion only; it is not an offer of securities, partnership, or employment. All fees are estimates and subject to engagement letter. Data sources listed in Master Plan Appendix. For grievance: +91 87896 01387.
