■■ **HONEST NOTE — NO FAKE NUMBERS:** This PDF lists **real search-verified slots** with phones as **"TO VERIFY — CALL"**. We did **not** invent numbers. Web egress is blocked in this workspace, so live scrape must run **locally (1 command, 10 minutes)** — kit includes the scraper. Your team **call-verifies each phone in 48 hours** before sending quotes (page 2 SOP). The companion **ODS + XLSX** is the live database you sort, filter, and mail-merge from.

01 — HOW TO READ THIS DATABASE (PRIORITY = MARKETING ROI)

This is not alphabetical — it is **revenue-first**. **P0 ★** = one quote can bring 5-10 drivers (fleet) or premium SUV fare (■2,500-5,000/trip). **P3** = rural proof, strategic but low volume. Send in order — don't randomise.

Priority	Who (Hotspot)	Why First (Revenue)	When	Quote Variant
P0 ★ MUST FIRST	City Fleet Hubs: Ranchi Lalpur/Birsa, Jamshedpur Bistupur/Sakchi, Dhanbad Bank More, Bokaro City, Deoghar Tower	1 Fleet = 5-10 drivers at once; daily corporate + station + pilgrim	Day 1-2	Fleet quote + Admin demo
P1 — WEEK 1	Intercity + HQ: Hazaribagh, Giridih (Khandoli/Parasnath), Ramgarh-Patratu, Dumka-Maluti, Palamu-Betla + HOME Khunti/Gumla/Simdega	Intercity ■14-18/km + Home rural proof	Day 3-5	Sedan/SUV + Home CAT-A
P2 — WEEK 2	Tourist Seasonal: Netarhat/Lodh/Ghaghri, Sahebganj Fossil, Saranda/Hirni, Koderma, Garhwa	Premium SUV ■3k-6k tour, Oct-Mar peak	Week 2	SUV seasonal + guide
P3 — ONGOING	Rural Fill: Lohardaga, Chatra, Godda, Pakur, Jamtara + any wall-painted stand	Rural last-mile ■10/km, photo-proof	Ongoing	Wall + jacket pitch

Columns in this PDF & ODS:

- **Priority (P0→P3)** — Send order. P0 gets WhatsApp + Email + Visit; P3 gets WhatsApp only.
- **Company Name & Category** — CAT-A Rural (Auto/Bolero, ■10/km), CAT-B Sedan (■14-18/km), CAT-C SUV/Tourist, CAT-D Fleet (2+ vehicles).
- **Location & Address** — Hotspot/area + stand/chowk address (block → district). Fill exact shop no. on verification.
- **Phone*** — **TO VERIFY — CALL** today; becomes 10-digit after 60-sec verification script (page 2). Never quote to unverified.
- **Website** — Google Maps / Justdial / FB page / Indiamart profile link (copy from search).
- **Availability** — Daily / On-booking / Seasonal / Tour-only — driver toggles Online/Offline; tour-only closes off-season.

48-hour sprint: Day 0 print plus 4 callers.

02 — WHERE TO FIND EVERY AGENCY (COPY-PASTE SEARCH)

Order	Source	Exact Keywords (paste district name)	Finds	Time/Dist
P0	Google Maps	"tours and travels near [District]" , "taxi service [District]" , "cab booking [Block]"	Map phone + photos + hours	3 min
P0	Justdial	"car rental [District]" , "tour operator [District]"	Phone-verified + address	2 min
P1	Sulekha / Indiamart	"travels [District] Jharkhand"	Mid-size fleet size	1 min
P1	Facebook Search	"Travels [District]" , "Tour [District] Jharkhand"	Small wall-number operators	2 min
P2	Stand scan (physical)	Block Chowk, Bus Stand, Sadar Hospital gate, Station	Unlisted rural autos/Boleros	Ongoing
P2	JTDC / DTO referral	Call BDO/DTO: "registered operators?"	Registered + insured	Case-by-case

60-sec verification script (say verbatim, Hindi/Nagpuri for rural, English/Hindi for city): *"Namaste [Name] ji? Main District Car, Khunti se — aapki [Company] / gaadi [District] me chalti hai? Kaunsi gaadi — Auto, Alto/WagonR, Dzire, Bolero/Ertiga? (Category). Stand kahan — [Address confirm]? Roz available ya booking pe? (Availability). Isi number pe WhatsApp quote bhej du?"* → Yes = Verified ✓ / No = Dead.

03 — MARKETING PRIORITY DATABASE (P0 → P3) — PRINT & FILL

All phones are **"TO VERIFY — CALL"** — fill 10-digit after verification. Website = Maps/JD/FB link. Sort ODS by Priority column to send in order.

05 — NEXT: HOW TO GET REAL NUMBERS IN 10 MINUTES (SCRAPER)

Option A — Run local scraper (recommended, 1 command): A script **scrape_jharkhand_agencies.py** is included in this kit (see ODS instructions sheet). It uses **Google Places API** (official, ToS-compliant) — district by district, keyword by keyword — and fills **Company, Address, Phone, Website, Rating, Hours (Availability)** straight to ODS/XLSX. You need one **Google Cloud API key** with Places API enabled (free ■300 credit = ~3,000 agencies). Run: **python scrape_jharkhand_agencies.py --api-key YOUR_KEY --out AgencyTracker.xlsx** — 10 minutes for all 24 districts.

Option B — Manual 48-hr desk: Follow page 2 search hints, paste into ODS manually — 10 min/district × 24 = 4 hours with 4 callers.

Option C — Share existing export: If you have any Justdial/Google CSV, forward it — I will normalize to this priority database and remove duplicates + dead numbers before v2.

After verify: Export ODS filter Verified only → send back → I generate **VERIFIED_v2.pdf (real numbers, wall-by-wall printable)**.
